

Why Plants?

Businesses have long realized that the physical environment directly affects an employee's ability and desire to work. Now, businesses are realizing that interior plants are a natural and vital part of a productive workplace environment. The majority of Fortune 500 companies have landscaped their

office interiors – boosting morale, building employee contentment and promoting productivity.

Company Profile

R&M Interior Gardens has over 16 years of interior plantscaping experience.

We create many designs encompassing various types, tastes and environments.

We pride ourselves on doing quality installations and consistent superior plant maintenance at affordable prices.

Service

Upon installation or takeover of your account, R&M Interior Gardens will clean, trim, polish and stage all plants placing them in their most attractive settings.

Service is provided on a weekly basis which includes watering, dusting, fertilizing and pest control.
